## EDUCATION

### Harvard Graduate School of Education

*Ed.M., Learning Design, Innovation and Technology [4.0 GPA]*

Cambridge, MA

May 2022

### Columbia University, School of Engineering & Applied Sciences

*B.S.E., Computer Science [3.7 GPA]*

New York, NY

May 2019

## WORK EXPERIENCE

### Comp Sci High

Bronx, NY

Workplace Challenge Coordinator

Since Apr 2023

- Organized multi-month internship experience for select group of students to research, design, and build real-world solutions for a business need using Software Engineering skills
- Coordinated with external partners for sessions, mentorship, and final presentations

### Comp Sci High

Bronx, NY

Computer Science & Math Teacher

Since Sep 2022

- Teach 11th and 12th grade Software Engineering and Stats 1 classes
- Designing culturally-responsive curriculum with differentiated materials for the above classes to best serve low income Black and brown students

### Giant Machines

New York, NY

Computer Science Instructional Coach & Instructor

Mar - Aug 2022, 2023

- Coached teaching fellows in Computer Science content and pedagogical content knowledge through weekly meetings to review projects, provide technical support, and offer guidance on how to teach topics
- Taught several week-long HTML/CSS, Flask, and Python courses to high school students

### Goldman Sachs

Jersey City, NJ

Technology Analyst, Finance Engineering

Aug 2019 - May 2021

- Developed computer programs for PARA technology implementing calculations and controls on profit and loss
- Worked with users to identify user needs, define specifications, and design tools

## PROGRAMS & ACTIVITIES

### Girls Who Code Club Facilitator

Since Feb 2025

- Organizing weekly sessions with community building and web development classes for 20 girls & non-binary students
- Coordinating field trips and mentorship opportunities to build engagement and interest in tech industry

### Digital Ready Boston Volunteer

Mar 2022

- Supported low-income Black and brown youth through Java coding assignments and technical projects in the program designed to increase their pathways to the tech industry

### HGSE [Alumni of Color Conference](#) Presenter

Mar 2022

- Organized and moderated a panel on Equitable and Liberatory Computer Science Education: The Path to Culturally Responsive-Sustaining CS For All

### Columbia University Teaching Assistant & Student Club Lead

Sep 2016 - May 2022

- Lead review sessions & office hours as a TA for multiple introductory Computer Science class
- Organized and led the mentorship program that connected hundreds of underclassmen to upperclassmen in the major
- Organized and led a week-long technology immersion program for students underrepresented in the tech field

## PROJECTS

### designing for community curriculum

- Developed a CS & Ethnic Studies curriculum that combines computational thinking with a deep exploration and critique of technology's historical and present impact to foster community-oriented computational action
